The Central Government has approved and notified MPD-2021 on 7th February, 2007 keeping in view the perspective for Delhi for the year 2021 and growing new dimensions in urban development. The Plan addresses the concerns relating to shelter, commercial and industrial space, social and physical infrastructure, mixed use, transportation, environment, heritage conservation etc., for the projected population of 230 lakh in National Capital Territory of Delhi by 2021.

(c) and (d) MPD 2021 provides that the regularization of unauthorized colonies whether on private or public land should be done as per the orders of the Government issued from time to time. It also provides for ensuring the improvement of physical and social infrastructure and provision of minimum necessary/feasible level of services and community facilities. The Cabinet has recently approved a proposal for revision in guidelines for regularization of unauthorised colonies covering aspects such as cut off date, cost of land, development charges etc.
